

Alert number: A12/00970/20

Product: Particle filter mask

Name: Respirator

Risk type: Health risk / other

Category: Protective equipment

Brand: Elite

Type / number of model: EB09.049

Type of alert: Products with serious risks

The product bears a CE marking but is not certified as protective equipment by a relevant body. Additionally, the particle/filter retention of the material is insufficient (measured value $\leq 98.5\%$). Consequently, an excessive amount of particles or microorganisms might pass through the mask, increasing the risk of infection if not combined with additional protective measures. / The product does not comply with the Personal Protective Equipment Regulation and the relevant European standard EN 149.

Measures taken by economic operators: Recall of the product from end users (By: Distributor)

Description: KN95 protective respiratory filtration half-face mask, category FFP3 according to EN 149.

Packaging description: The product is wrapped individually in a transparent plastic bag with a white sticker on it. The product was also sold online.
