

Alert number: A12/01072/20

Product: Particle filter mask

Name: Three-dimensional protective respirator

Risk type: Health risk / other

Category: Protective equipment

Brand: VHC Global

Type / number of model: KN95

Type of alert: Products with serious risks

The product bears a CE marking but is not certified as protective equipment by a relevant body. Additionally, the particle/filter retention of the material is insufficient (measured value ≤ 93 %) and the mask does not properly adapt to the face, leading to an insufficient total filtration capacity (measured mean value ≤ 89 %). Consequently, an excessive amount of particles or microorganisms might pass through the mask, increasing the risk of infection if not combined with additional protective measures. / The product does not comply with the Personal Protective Equipment Regulation.

Measures ordered by public authorities (to: Importer): Marking the product with appropriate warnings on the risks

Description: KN95 protective respiratory filtration half-face mask of category FFP2 according to EN 149.

Packaging description: The product is wrapped individually in a plastic bag and sold in a white cardboard box containing 40 pieces.
