

Alert number

[A12/01473/22](#)

Product

UV insect killer lamp

Risk type

**Electric shock
Fire**

Live parts of the are accessible through the casing. There is no cut-off, hence the plug pins remain live after being removed from the mains. The electrical insulation and the clearance / creepage distances between the primary and accessible secondary circuits are not sufficient, hence the product could overheat and start a fire.

The product does not comply with the requirements of the Low Voltage Directive nor with the European standards EN 60335-1 and EN 60335-2-59.
